

Threesixty. Design: EOOS.

Threesixty uses space. In every direction. Two upholstered seats carry the elongated backrest on two columns. Castors make it easy to turn the seats around the columns. If the units are turned, the seating space changes. This enables individual ways of sitting. The back also acts as an armrest, can hold a tray of drinks or even a laptop.

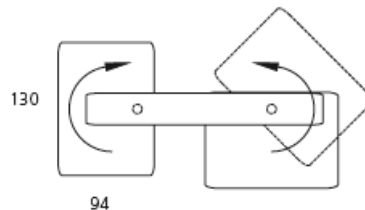

**Model no.** 720-40

**Frame** Wooden construction with spring core.

**Upholstery** Cold cure foam sandwich construction with an outer layer of wadding.

**Legs** Castors suitable for hard and soft floors.

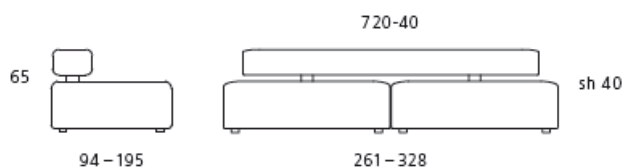

**Function**

Upholstered seats can be turned 180° around the columns.

**Notice** The chosen cover colour determines the colour of the piping (black or white)
