

MASON sidetables + magazine rack. Design: Wolfgang C. R. Mezger.

Neat and small. These tables are genuine highlights and render good service wherever they are. In the living room, the foyer or the office. The extensions to the Mason range are quick to hand and always wherever they are needed. As a coffee table in front of the sofa, as a side table, as a versatile rack for newspapers and magazines. The coloured glass table tops are interesting eye-catchers. The newspaper rack features a classy saddle leather surface.

Product description
