

MYchair LOUNGE. Design: UNStudio/Ben van Berkel.

The chair seems to open out to welcome you. The backrest tilts back slightly – as you would expect of a proper lounge chair. A small neck cushion provides additional comfort. So just put your feet up, lean back and relax. The upholstery traces convex and concave shapes. A new perspective to behold from every side. MYchair Lounge - an avant-garde sculpture, both on its own and as a complement to the sofa.

Product description
