

TOBU. Design: Wolfgang C. R. Mezger.

The round table: meeting point and centre of a house. Tobu, the large dining table, is the perfect invitation to a convivial dinner. Or for a simple chat. Lightweight and stable - the delicate framework. Natural and elegant – the round solid wooden top. With plenty of extra space for further guests, family and friends. Lazy Susan means that all the guests can reach the dish they are interested in: the turntable adds an aesthetic touch of courtesy to the table – a tribute to the hospitality of Asia.

Product description
