

MOUALLA TABLE. Design: Neptun Ozis.

The finesse of an apparent simplicity could be the motif of the Moualla Table. The table – in solid oak or nut wood – is characterized by unique lines, free-hand drawn by the architect in an unusual yet harmonious way. And, as is so often the case, magic is in the detail: the table top, seemingly floating over the framework, gives the model a sense of stable lightness. The signs of exceptional craftsmanship are omnipresent here, coming to life in the impressive longitudinal grain and accurate edge finishing of the table top.
